OTDR NOVKER 6200

Product overview

NK6200 series OTDR adopt 7 inch capacitance touch screen, which integrates 9 modules. With excellent intelligent hardware design, the accuracy of short fiber test and automatic test is higher. It can test 1:64 splitter. It is equipped with rich Ethernet test (Ping/PPOE, etc), support APP control.

NK6200 series is used to test the optical fiber length, loss and connection quality, and used in the engineering construction, link maintenance test, They are mainly used in urban trunk, bone trunk network and metropolitan area network.
